Centre for Atmospheric Sciences  
Minutes of the CRC (2020 – 21)  

Date: 27/05/2021  

Time and venue: 27th May 2021, 3:00 pm on MS Teams  

Present:  
Prof. Somnath Baidya Roy  Chairperson  
Prof. Krishna AchutaRao  Member  
Prof. A. D. Rao  Member  
Prof. Sagnik Dey  Member  
Prof. Vimlesh Pant  Member  
Prof. Dilip Ganguly  Member  
Prof. Ravi Kumar Kunchala  Member  
Prof. Sandeep Sukumaran  Member-Secretary  

Item 1: Corrigendum to the MTech shortlisting minutes dated 20/05/2021 and approved on 23/05/2021  
The following candidate is now placed in the list of shortlisted candidates, as it is found that the candidate’s GATE score is above the cut-off approved by the CRC

Item 2: Addendum to the MTech shortlisting minutes dated 20/05/2021 and approved on 23/05/2021  
It has come to the notice of the CRC that the distribution of seat allocation of MTech is specified to various GATE disciplines, and the case of GATE waived candidates who are eligible for assistantship was not considered. Further to the item-3 of MTech shortlisting minutes dated 20/05/2021, the CRC added that in the event of a GATE waived candidate being selected, that candidate will be offered a seat by considering the candidate’s qualifying discipline in lieu of the GATE discipline.  

Item 3: Addendum to the MTech shortlisting minutes dated 20/05/2021 and approved on 23/05/2021  
It has come to the notice of the CRC that the operation of waiting list for MTech admissions is not specified in the minutes dated 20/05/2021. In order to minimize the number of vacancies, the CRC recommends that vacant seats in one discipline may be offered to candidates in other disciplines. Accordingly, the CRC approved the following criteria for operating the waiting list:  
The vacant seat will be first offered to the candidates in the waiting list who qualified in the same GATE discipline. If there are no candidates who qualified in that particular GATE discipline in the waiting list, then that vacant seat will be offered to candidates in the waiting list who qualified in other GATE disciplines, with the following priority:  

(i) Engineering Sciences (XE) with Atmosphere and Ocean Science (H)  
(ii) Science disciplines (Chemistry (CY), Physics (PH), Mathematics (MA), Statistics (ST) and Geology and Geophysics (GG))  
(iii) Engineering disciplines (Aerospace Engineering (AE), Agricultural Engineering (AG), Civil Engineering (CE), Chemical Engineering (CH), Mechanical Engineering (ME))
(ME), Mining Engineering (MN), Petroleum Engineering (PE), Production and Industrial Engineering (PI), Environmental Science and Engineering (ES), and Engineering Sciences (XE) with an optional paper other than H)

(Sandeep Sukumaran)
Secretary, CRC
